AquaShine THE ULTIMATE SHINE, EVERY SINGLE TIME

AquaShine Membership Program User Guide

Requirements, POS Redemption Workflows & Customer Portal Operations

1. Executive Overview

The AquaShine Car Wash Membership Program is an automated, recurring subscription designed to maximize recurring customer retention, increase average lifetime customer value (LTV), and deliver a frictionless express checkout experience for commuters and fleet vehicle operators.

Members pay a predictable monthly or annual rate to receive guaranteed wash credits every billing cycle, priority lane access, and exclusive discounts on premium vehicle enhancements and add-ons.

2. Membership Plans & Specifications

AquaShine provides two distinct service levels, each available in either Monthly or Annual billing frequencies:

- **Basic Monthly ($29.99 / month):** Includes 4 exterior Basic Washes per billing cycle. Spot-free rinse, high-pressure wheel blaster, and power dry. 10% discount applied to all selected add-ons.
- **Basic Yearly ($299.99 / year):** Same 4 Basic Washes per month with 17% annual savings (equivalent to 2 full months free). 10% discount on add-ons.
- **Premium Monthly ($39.99 / month - Most Popular):** Includes 4 Premium Washes per cycle with clear-coat protectant, ceramic gloss finish, undercarriage wash, and tire shine. 10% discount on all optional add-ons.
- **Premium Yearly ($399.99 / year - Best Value):** Full annual pass covering 4 Premium Washes each month, year-round ceramic protection, priority express queue, and 10% off add-ons.

> **Key Rule: Monthly Allowance Allocation**
> Every plan provides 4 complete washes per 30-day billing cycle. Unused washes expire at the end of the billing period and do not roll over. On renewal, the wash balance resets automatically back to 4.

POS In-Person Wash Redemption Guide

Standard Operating Procedures for Cashiers and Bay Attendants

3. Cashier POS Redemption Workflow

When an enrolled member arrives at the drive-thru or counter, the Point of Sale terminal automatically handles plan validation and price deductions:

- **Step 1: Identify Customer:** Ask for customer phone number, name, or vehicle license plate. Select the matching customer record from the POS customer search list.
- **Step 2: Service Selection:** Select the vehicle type (Car, SUV, Truck, Van) and the desired wash package (Basic or Premium Wash).
- **Step 3: Automated Pass Recognition:** The system immediately checks whether the customer holds an active membership. If the chosen wash matches the plan's included tier (e.g., Premium Wash on a Premium Plan) and remaining washes > 0:
  - **Base wash price is automatically reduced to $0.00 ("Wash Covered by Pass")**
  - **10% Member Discount is automatically calculated on any selected add-ons**
- **Step 4: Payment Tender:** If total is $0.00, click "Membership Pass" to immediately finalize. If add-ons are included, the customer pays the remaining discounted balance via Card, Cash, or Tap.
- **Step 5: Automated Balance Decrement:** Upon sale completion, the customer's remaining wash balance automatically decrements by 1 (e.g. from 4 to 3), and a timestamped audit record is generated.

4. Edge Cases & Over-Limit Rules

- **Allowance Exhaustion (0 Washes Remaining):** If a member has already used all 4 washes within the current 30-day cycle, the base wash is charged at standard price. However, their 10% member discount on add-ons remains active until renewal.
- **Upgrading Service at POS:** If a Basic Plan member requests a Premium Wash, the cashier selects the Premium package. The standard price applies (or plan difference if promotional discount applies).
- **Multiple Vehicles under One Member:** Members can register multiple family or business vehicles under their profile. The cashier selects the specific vehicle serviced during checkout for clear audit records.

Customer Self-Service Portal & Administration

Account Management, Security, and Plan Lifecycles

5. Customer Portal Functionality

Enrolled members have 24/7 access to their dedicated self-service portal (/customer-portal) from any smartphone or browser:

- **Real-Time Balance Tracker:** Live dashboard widget showing remaining washes (e.g. "3 of 4 Washes Remaining") and progress bar.
- **Billing & Renewal Schedule:** Clear display of next auto-renewal date, plan name, and billing frequency.
- **Vehicle Fleet Management:** Ability to add, edit, or remove personal vehicles and license plates with instantaneous POS synchronization.
- **Itemized Wash History:** Comprehensive digital receipts detailing date, time, location, wash package, and vehicle serviced for every transaction.
- **1-Click Cancellation:** Customers can cancel their membership directly in their portal at any time without having to call or wait in line.

6. Subscription Cancellation & Billing Lifecycle

AquaShine strictly enforces fair, transparent subscription practices:

- **Immediate Cancellation Access:** When a member clicks "Cancel Membership", the plan status transitions to "cancelled".
- **End-of-Period Benefit Retention:** Members continue to enjoy their remaining wash credits and add-on discounts until the current paid period ends (expirationDate). No further billing occurs.
- **Zero Hidden Fees:** No cancellation penalties, contracts, or minimum commitment periods.

> **Audit Trail & Compliance**
> Every membership creation, wash redemption, and cancellation generates an immutable log with transaction IDs, timestamps, and operator IDs stored in the audit ledger.
